*FOR ILLUSTRATIVE PURPOSES ONLY. This is a hypothetical illustration to show the value of an increase in contributions. This hypothetical illustration is not intended as a projection or prediction of future investment results, nor is it intended as financial planning or investment advice. It assumes monthly contributions of \$25, a 6% average annual rate of return and reinvestment of earnings with no withdrawals over a 30-year period followed by 20 years of monthly withdrawals of \$179.92, including a 6% average annual rate of return, beginning at age 65. Rates of return may vary. This illustration does not include any charges, expenses or fees that may be associated with your plan. The tax-deferred accumulations shown above would be reduced if these fees were deducted.
